What is the difference between an icon and an attraction?

- The difference between an attraction and an icon is as follows:
- **Tourist attraction:** Something that tourists wish to visit at a particular destination. These attractions may be the local culture, a historical site, a building, an activity or any other feature of interest to a tourist.
- **World icon:** is a tourist attraction that is **strongly associated with a destination** and which **may symbolise the destination**. They **represent a country** or a city, and are **recognised around the world**.

Verskil tussen 'n toerisme-besienswaardigheid en 'n ikoon.

- Die verskil tussen 'n besienswaardigheid en 'n ikoon is soos volg:
- **Toeriste-aantrekingskrag:** iets wat toeriste by 'n spesifieke bestemming wil besoek. Hierdie besienswaardighede kan die plaaslike kultuur, 'n historiese terrein, 'n gebou, 'n aktiwiteit of enige ander interessante aspek van 'n toeris wees.
- **Wêreld-ikoon:** is 'n toeristeaantreklikheid wat **sterk verband hou met 'n bestemming** en wat die **bestemming kan simboliseer**. Hulle **verteenwoordig 'n land of 'n stad** en word **wêreldwyd erken**.
